Six months experience at ECTC

by : Barnabas Baraily

On my first day when I came to ectc, I remember sister Bimala welcoming me with her big smile. At the beginning I definitely had to get used to new ideas of working in an office environment with all the staff sitting in one room!. However, after a while I got used to it and felt comfortable.

The colleagues that I am working with are very nice and helpful. They are from

different backgrounds and have different specialties, but some of them are also theological students like me. This is very useful because this way we can learn and share knowledge with each other.

The tasks and project that I am assigned to is very interesting. At the beginning, I noticed that seemed so complicated, but I soon got immersed in it.

In the month of April 2017, the Pastoral Care Training Department has asked me to attain the "Conflict Management Training" at ECEC for two days. The training permitted me to know

how to handle a conflict and enable me to explain the positive attitude and behavior that should be followed in the workplace, home, church and etc.

Working in ECTC has been not only an honor and privilege but a lifelong experience that will forever shape my professional life. The works fits my education and I am looking forward to learning a lot in the future. I am very appreciative of this opportunity and forever grateful to ECTC. Thank You

Please Note: should you no lonqer wish to receive this letter, please inform us on info@ectc.nepal

Once again, Thank You !
